

## News Release

### Uranium Star Corp. Provides Update on TSX Venture Exchange Listing Status

TORONTO, ONTARIO – (May 21, 2008)

Uranium Star Corp. (“URST” or the “Company”) (OTCBB:URST) (FRANKFURT:YE5) is pleased to provide an update relating to the Company’s application for Tier 1 status on the TSX Venture Exchange (TSX-V)

The application process required a number of significant submissions to the TSX-V in order to meet their listing criteria. The Company has now submitted all requested updates and enhancements, and a reservation of our trading symbol has been granted. We now believe that the Company has met all of the requirements of a Tier 1 Issuer, and that the TSX-V listing process can now move forward.

URST will keep its NASDAQ Bulletin Board (OTC:BB) listing, as we deem it important that this dual listing on the TSX-V and OTC:BB will provide the Company’s existing shareholders with their requested desire to operate within both exchanges.

The Company cautions that this listing process is exacting and defined, and we are hopeful that a positive conclusion will be reached in the very near future.
